

TYPHOON SQUADRON REPORT #1

Date: 30 May 2023, for the period of 21 May - 27 May 2023

Reporting Officer: Major Gytheran

To: Typhoon Squadron

CC: AD Stryker, Battlegroup III Commander

BCC: TIE Corps

Good afternoon, Pilots!

You may recognize me. My name is Gytheran, but you may call me by my callsign, "Pops," if you want. I have been appointed interim Squadron Commander of Typhoon while Colonel Boliv is away on official TIE Corps business. I know this is a little jarring, but all will make sense in time. Let's get down to business!

Typhoon: A week in review

This past week saw impressive activity in Typhoon. In total, Typhoon Squadron put forth an impressive 13 Legions of Skirmish and 130 completed single-player missions! This is what I like to see! Col Setzer not only set high scores for two missions and one battle, but also completed three Imperial University courses, completing the Certificate in Flight Operations! GN Master crushed the single player kill board with 97 single-player mission completions and is well on their way to topping the kill board for the month. Despite being few, your strength is mighty!

Squadron News

In two short days, Squadron (Re)Mobilization will be upon us! This is the time for us to come together as a squadron to build cohesiveness, while getting warmed up for the fight ahead (RtF?!). In the competition link below, you will find a listing of all tasks given to us, which encompasses a vast variety of activities from fiction, IU courses, and mission design, to tried-and-true gaming. By completing tasks, we are given the opportunity to modify our squadron objective and the ships we fly. And while those changes are very appealing, the real benefit is that we will be building comradery as we complete tasks together! When you have a chance, review the tasks at the link below and join in the discussion on Discord. We will be coordinating schedules and games to get pilots flying together!

Closing Remarks:

This week you guys did an amazing job, far above what could be asked for. As a squadron, we are poised to hit the skies at full throttle when (Re)Mob begins, and we will only get stronger from there. I appreciate the patience you've shown me as I get up to speed with Typhoon. You have truly made me feel at home. If you have any questions, feel free to contact me and I will respond as soon as possible. My door is always open. That is all I have for you. I look forward to crushing (Re)Mob with you in the coming weeks. Get some rest. You're gonna need it. Dismissed.
