## From Scrap to Star Destroyers!

The TIE Corps of the Emperor's Hammer have been at the forefront of the efforts to ensure the Empire has all the resources they need to take the fight to the Republic!

Pilots of the ISDII Warrior have made a sizeable contribution to the "Scrap = Star Destroyers" scheme.

LC Ulrich Drachen has announced today that: "Kappa Squadron has been working tirelessly in the interests of the TIE Corps and ensuring that the Emperor's Hammer has all the ships she needs following the recent engagements that have formed part of this year's Raise the Flag manoeuvres."

"Accusations that these are little more than our empties following a single social occasion held within the Kappa rec-rooms are highly exaggerated, I can assure you. Kappa pilots are as ready as ever to take the fight to the Republic and all other enemies of HYPE!"

Admiral Plif of the ISD Warrior added:

"Kappa's dedication to the Scrap to Star Destroyers scheme have ensured that all repairs to front line vessels are well provisioned! Their contributions will be recycled into fresh deck plates and bulk heads, ensuring our Star Destroyers remain fighting fit!"

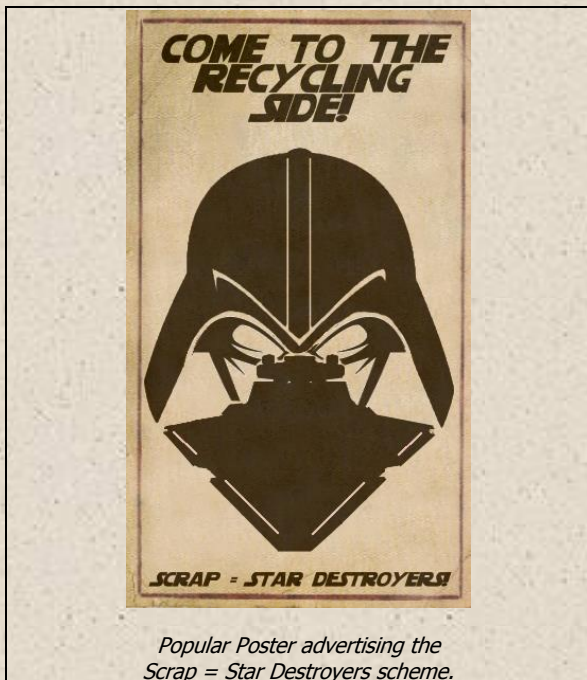

Pilots and other personnel wishing to support the Emperor's Hammer and help maintain the TIE Corps fleet are encouraged to report to their vessel's waste management department for assignment.

Wing Commander General Frown states:

"Kappa's rightful place is certainly in the waste disposal department. I can't argue with that..."

His support for the scheme is clear!
